II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? 118, 664 tons
3. If inactive, what year was the mine last active? N/A

3. How much **additional acreage** was disturbed during the past year? 1/2
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.  
Additional disturbed acreage resulted from continued  
mining in the pit. As the pit floor progress downslope,  
the pit area expands. The volume of material removed  
from the pit in 1997 is approximately 56,500 yards.
5. How much acreage was **reclaimed** during the past year? 0
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.  
There was no reclamation work performed in 1996.
7. What is the **total disturbed acreage** at years end? 17.2
8. Briefly summarize any mining and/or reclamation plans for the upcoming year.  
Mining and crushing will be completed to meet market  
demands. There is no planned reclamation to be completed  
in 1998.

**NOTE:** Section III., "Additional Information" applies only to large mining operations.

### III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted. There are no significant changes.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached. None required.
